

OMNINET RFC Rating

The OMNINET RFC-Rating offers all customers with active Update Subscription Contracts the opportunity to rate Request for Changes (RFC) for minor or major releases of the OMNITRACKER Core System. As a result, customers may actively influence the contents of future OMNITRACKER releases.

The general principle of the RFC-Rating is:

- Each company will be supplied with a certain number of points depending on the volume of their Update Subscription Contracts.
- These points can be used to influence the implementation of the OMNITRACKER Core System enhancements.
- The RFCs will be weighted by OMNINET with a minimum number of points (called threshold number), being necessary to move RFCs from unplanned RFCs to RFC release candidates.
- Depending on the allocated implementation capacity of the OMNINET Core implementation team, the TOP-rated RFC candidates will be scheduled in the OMNITRACKER Core Release Definition.

PLEASE NOTE: This RFC Rating is not a contractual obligation of OMNINET; it may be withdrawn at any time by OMNINET with a 2 weeks notification period. This notification can be done via email.

Login

The online access to the OMNITRACKER RFC-Rating is provided by a Web Interface. You can login via the OMNINET Homepage www.omninet.biz.

The login information is identical to the OMNINET Service Desk.

OMNITRACKER RFC Rating

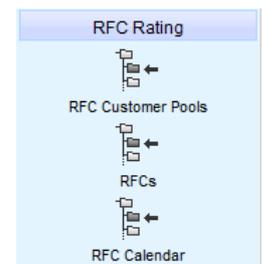

OMNITRACKER Web Gateway V9.0.200 build 2890

Shortcut Bar

After login you find a shortcut bar on the left-hand side, which helps you navigate through the RFC Rating:

- The icon "RFC Customer Pools" shows your Customer Pool to which the relevant OMNITRACKER license records are associated.
- All ratable RFCs are listed by clicking the icon "RFCs".
- The RFC Calendar shows all dates and information regarding the current "ratable" OMNITRACKER Core System version.

RFC Customer Pool

Pressing the icon "RFC Customer Pools" will display the Customer Pool view. By selecting your customer object, you can access all relevant data for RFC Rating like:

- Licenses** related to the Customer Pool (Expiration Date, Maintenance Type, Host ID, etc)

Customer Pool: OMNINET Software-, System und Projektmanagementtechnik GmbH

Number: CP-19
 Associated Company: OMNINET Software-, System und Projektmanagementtechnik GmbH
 Points Available: 7050 Points Given: 4550
 Rating/Version: 9.4.0

Type	Name/Description	Size	Created	Changed
CP-19.pdf		62.9 KB	29.08.2010 10:08:09	29.08.2010 10:08:09

Licenses | Account Statements | Ratings | Authorized Users

Number	Customer	Host ID	License Expiration Date	Contract Type
L-030300	OMNINET Software-, System und Projektmanagementtechnik GmbH		31.12.2010	Support - Subscription

- Account Statements** containing one entry for each accounting transaction (rating a RFC, withdrawal of a rating, changes regarding the extension of licenses and / or the renewal of support contracts):

Customer Pool: OMNINET Software-, System und Projektmanagementtechnik GmbH

Number: CP-19
 Associated Company: OMNINET Software-, System und Projektmanagementtechnik GmbH
 Points Available: 7050 Points Given: 4550
 Rating/Version: 9.4.0

Account Statements

Creation Date	Type	Number of License / RFC	Points
20.10.2009 13:36:41	License	L-030300	5800
20.10.2009 13:46:36	License	L-030300	5800
25.03.2010 18:30:40	Rating	OT-01396 Support for the OMNINET standard for sending and receiving secure emails	-150

Salutation	Title	First Name
Mr.	Dr.-Ing.	Joschim
Mr.		Jakob

RFCs

By clicking the icon RFCs on the shortcut bar, all RFCs, which can be rated, are displayed.

Number	Title	Given Points	Minimal Points	Rating Factor
OT-04662	New permission "Task - Define"	26970	40000	0.67
OT-06689	Support of MySQL for OMNINETTRACKER's data import / export mechanisms	19700	40000	0.49
OT-06911	Improvements regarding "ask user" filter parameters	11300	28000	0.4

The background color of a RFC identifies its **current** rating status:

- Green:** The RFC will be implemented.
- Yellow:** The RFC is rated by more points than indicated by the threshold value; however, the ranking is not yet sufficient for being an implementation release candidate.
- Grey:** The RFC has been rated less than the threshold value.

PLEASE NOTE:

The current status of each RFC may change during the RFC-Rating period by being rated by other customers.

By opening a RFC record you can see the detailed description of the RFC; you may rate for this RFC by clicking the button "Vote this RFC".

Rating a RFC

A RFC can be rated by

- Clicking the button "Rate this RFC" within a RFC record

- Clicking the button for creating a new Rating in your Customer Pool on the tab "Ratings"

On the Rating Form the Customer Pool and the RFC have to be selected and the points for this RFC have to be specified.

You can delete a rating by navigating to the tab "Ratings" on the Customer Pool page. Clicking on a specific rating will open a form where you may delete the rating by pressing the button "Delete Rating". The points of the deleted rating will be reversed to the available points of your customer pool.

RFC Calendar

The RFC Calendar you can open by clicking on the icon on the shortcut bar provides you with all necessary data regarding current and future rating periods.

Information is given about ratable OMNITRACKER version, the duration / state of the rating period and planned release date of the specific version.

Version	Start of Rating Phase	End of Rating Phase	End of Alignment Phase	Planned Release Date	State
9.4.0	03.09.2010	15.10.2010	29.10.2010	Q1/2011	Planned

The company

Our primary goal is to satisfy our clients by offering high-quality products and services as well as first-class service.

In addition, we consistently implement the needs and desires of our clients with regard to product content, quality and deadline. The service that we provide to our clients does not end when the contract is signed: it is only the beginning.
