

Task Management

Efficiently plan and implement tasks

Your benefits

- ✓ Efficient task management with prioritization, categorization, delegation, processing and monitoring of all tasks
- ✓ Simple definition of authorizations and responsibilities
- ✓ Structured task management by creating task threads and templates, and defining automatic escalation times for each task
- ✓ Better overview through current displays of status and completion time of all tasks
- ✓ More transparency thanks to a variety of reports and different views
- ✓ Automatic updating and archiving by using a Microsoft® Outlook® connection

Cross-team task management

The prerequisite for a successful, efficient and goal-oriented way of working is reliable task management. With OMNITRACKER Task Management, you can manage, coordinate, monitor and—with the help of OMNITRACKER Web Gateway—process all tasks within your organization, regardless of location. This way, you not only maintain an overview, you also significantly increase efficiency.

Current view and filter options as well as reports provide you with the necessary transparency. With the authorization concept, you can conveniently define responsibilities and visibilities. OMNITRACKER Task Management seamlessly integrates with your corporate workflows and other OMNITRACKER applications and facilitates overall task management across departmental boundaries.

Features of OMNITRACKER Task Management

Cross-team task distribution

Link with Microsoft® Outlook®

Current status overview

Generation of clearly structured reports

Rights and role management via OMNITRACKER platform

Flexible customization and integration options

About OMNINET

OMNINET, headquartered in Eckental near Nuremberg and with international branches, specializes in ITIL®4-certified ITSM & ESM software with a focus on modelable workflows and process automation with AI. Interfaces, BI reporting, compliance solutions and other modular applications extend the functional scope of the all-in-one solution OMNITRACKER.

OMNINET is certified according to ISO standards and has been providing certified and award-winning software products for over 30 years—100% made in Germany. The flexible OMNITRACKER low-code platform is the industry-independent software solution for individual digitalization strategies.

What you can expect

Our purpose is to empower your business with high-quality software solutions. With us, you succeed in a rapidly evolving digital landscape and enhance your growth potentials.

Results-driven consulting

To reach your goals, our consultants help you identify your needs and develop tailored strategies, from technology selection to architecture design.

Versatile project management

With a focus on agile methodologies, we ensure your projects are delivered smoothly, on time, within budget, as well as with exceptional quality.

Practical training

We empower your team with skills to make the most of our software solutions. Our trainings cover best practices, tool utilization and agile development.

Together, we create software that drives growth and innovation, helping your business stay competitive and future-ready.
